

St Mary's
Colchester

PROSPECTUS

MRS HILARY VIPOND
Principal

Welcome

We hope you enjoy finding out more about our school.

I hope that as you take a look through our prospectus you'll begin to get a real feel for the unique character of our school. You'll find plenty of information here but often people find that by visiting us they get the best insight into all we have to offer. So please take a look at whether you can make one of our upcoming Open Mornings or arrange a private tour at a time that's convenient to you.

St Mary's is an independent school in Colchester, Essex for girls age 3-16 and boys age 3-4. We are proud to have charitable status, meaning all fees are reinvested into the school. We are also truly independent, with no owners or shareholders, and are overseen by a committed governing body who help ensure we provide a high quality and brilliantly balanced education, and a happy learning environment.

If you have any questions or would like to arrange an individual tour, please don't hesitate to contact our Registrar, Mrs Justine Tierney, who will be happy to help.

‘The students demonstrate an enjoyment of their learning and are invariably enthusiastic and well behaved. They work well during lessons and are very supportive of each other, celebrating each other’s achievement in class.’

- The Independent Schools Inspectorate

St Mary's ethos

A focused academic education, with a wealth of opportunities to stretch each individual intellectually, creatively and physically... that's what we offer your child at St Mary's.

Learning for a lifetime

At St Mary's we are totally committed to providing your child with an education that will prove to be a solid foundation for a whole lifetime of personal fulfilment.

Academic focus

St Mary's is undeniably an academic school – our pupils' SATs and GCSE results are among the best in the county and even the country. However, our school is not academically selective on entry; whatever our pupils' starting point when they join us, our committed teaching team will bring out the potential we know is hidden inside each and every one. In our small school we are able to do this by tailoring the education to suit the needs of each individual. We also give pupils the encouragement and support they need to aim high. In the St Mary's culture, pupils understand that if they work hard they can achieve their goals.

Brilliantly balanced education

Success in life is not just about exam results. Our rich curriculum presents opportunities for our pupils to discover the interests and passions that will bring them great joy throughout their lives – music, drama, art, sport, community, charity, challenge and adventure of all kinds are available for pupils from the youngest age.

Character and confidence

For young people to thrive, learn and achieve, they must feel content, relaxed and secure. At St Mary's, each individual is known and understood and there is a culture in the school community – our staff as well as our pupils – of caring for each other, celebrating successes and working through difficulties. In this environment our young people develop the strength of character and the self-confidence they need to make the very most of the life that lies ahead.

'At St Mary's we help every student to develop the confidence to embrace life's challenges and enjoy doing so.'

- Mrs Hilary Vipond,
Principal

'My daughter grows in confidence every day she attends Kindergarten. She already loves school.'

- Mother of St Mary's Kindergarten pupil

Kindergarten

At St Mary's Kindergarten, we introduce your daughter or son to learning and make sure that she or he has a solid preparation – academically and socially – ready to make the most of all the opportunities school life brings. Children can start at St Mary's Kindergarten in the term they turn 3.

Experts in Early Years

Our specialist Early Years practitioners are experienced and enthusiastic about helping young children to take their first steps in education, encouraging them to be curious, interested and fascinated by life and the world around them.

The perfect place to learn

As well as their own beautiful, purpose-built facility, with its enclosed stunning new multi-sensory outdoor play area, Kindergarten boys and girls make full use of all the facilities of the Lower School too. They love choosing books from the school library, learning drama and dance in the mirrored Dance Studio, finding out about the natural environment in the outdoor classroom and Forest School area and stretching their legs on the playing fields or in the school hall all under the watchful eye of the Kindergarten staff. In this way they begin to develop their confidence by exploring their surroundings.

Teamwork with parents

We believe that a successful education rests upon strong partnerships between home and school. Parents are encouraged to chat with us about their children's progress at any time and there are lots of opportunities for families to come to the Kindergarten to see what we do.

Ready for school

As part of St Mary's Early Years Foundation Stage, the Kindergarten staff work closely with the Preparatory Class teacher, so this familiarity makes for a seamless transition to school.

Get in touch

You are most welcome to make an appointment to meet with Mrs Justine Tierney, our Registrar, and Kindergarten Manager Miss Suzy Violett to discuss how your child might benefit from beginning his or her school journey at St Mary's Kindergarten. Our Kindergarten is very popular and places can fill up over a year in advance. So if you are interested in a place, please get in touch with our Registrar as soon as you can.

'St Mary's Kindergarten gives children a head start... they are settled, more independent and ready to learn when they make the move to school.'

- Mrs Emma Stanhope,
Director of St Mary's Lower School

Kindergarten

In our caring and well-disciplined environment, a balanced and dynamic curriculum is offered where each child is encouraged to attain the high standard of which she or he is capable.

Preparing for Kindergarten

Before joining the Kindergarten you and your child are welcome to visit us to become familiar with our environment and staff. This is also an ideal opportunity to discuss your child's learning experiences so far with our experienced Early Years Foundation Stage staff. This helps us to make sure that, together, we are meeting your child's needs exactly and can continue to do so throughout his or her time with us in Kindergarten.

First days

When your child joins the Kindergarten, we work with you to ensure that he or she quickly feels at home. The member of staff your child feels most comfortable with will be named as his or her 'key person' and will monitor his or her progress and wellbeing at all times. If you have any questions about your child's development at the Kindergarten, the 'key person' is your first point of contact.

Kindergarten uniform

St Mary's Kindergarten pupils wear a uniform, which is not only practical and comfortable but helps your child feel that he or she really belongs in the Kindergarten. Also, of course, learning to put on uniform is good preparation for school. Uniform is available from the St Mary's School Shop and can be ordered using the online school shop, which is accessed from the school website, or collected in person from the shop at the Senior School (please make an appointment via the Senior School office). On joining the school, children and their parents often arrange for a full uniform fitting at the shop. Girls wear the St Mary's summer dress from May half-term to October half-term, when they change to the pinafore with yellow shirt and blue pullover for the winter months. Boys wear blue school uniform shorts or trousers with the St Mary's polo shirt and blue pullover.

Developing confidence

Kindergarten

Each child's 'key person' makes sure that she or he is progressing at the expected rate and is happy, content and really benefiting from all the opportunities to learn and develop at the Kindergarten.

Daily routine

The Kindergarten Core Day starts at 8.30am and finishes at 3.30pm. There are additional sessions which can be added on before or after the Core Day which are helpful for busy families.

Morning activities

The children arrive and start the day in a group together, either with a story or a 'show and tell' session. Then the day is made up of a variety of activities, mixing academic and more practical tasks to engage the children's interest and attention. At St Mary's Kindergarten, girls and boys constantly move forward in their learning. Programmes are put in place for individual children in order that our Early Years practitioners can develop each and every child to be a confident, happy individual.

Playtimes

There are regular opportunities for Kindergarten children to run, climb and play in the stunning new multi-sensory outdoor area throughout the Kindergarten day. The new play area provides the children freedom to be adventurous and inquisitive, helping them develop social skills and build self-esteem.

Lunchtimes

The children have a mid-morning snack of milk or water and fruit and vegetables, which they help prepare themselves. Every day, Kindergarten children eat a hot, nutritious and tasty school lunch, which is prepared by the school's own catering team. A weekly menu is displayed in the entrance to the Kindergarten and any dietary requirements are catered for. Children sit at the lunch table with the Practitioner to encourage good manners and social skills and to discuss the foods they eat. An afternoon snack is also provided.

Enrichment activities

After lunch, the children have a quiet rest time, with a chance to sleep if needed. The Kindergarten offers lively activities, including Forest School (exploring the local environment in and around the outdoor classroom), ballet, French, music and sport, which take place throughout the week. The Core Day finishes with a group session.

Wraparound care

Children may join us from 7.30am for a session including breakfast before the Core Day, and may stay afterwards until 6pm, with tea included.

St Mary's motto,
'Scientia et Veritas',
translates from the Latin as
'Knowledge and Truth'

—
underpinning the school's desire to help
pupils to derive pleasure from learning.

Lower School

St Mary's Lower School is set in a comfortable Victorian house surrounded by nine acres of beautiful grounds. Although non-selective, this is an academic school, which also offers a huge range of creative and lively activities designed to develop pupils' personalities for a brilliantly balanced education.

An amazing journey

During their time at St Mary's Lower School, children make enormous strides in their education. From learning to hold and control a pencil, to writing fantastic stories using a wide and expressive vocabulary, your child will absorb and apply a wealth of learning between the ages of four and 11.

Early Years

Pupils join us at the Lower School at the age of four. Before beginning in the Preparatory (Reception) Class, they are invited for a series of induction sessions in the classroom with class teachers, which really help to familiarise them with their new surroundings and builds their confidence for the first day at school. Parents have the opportunity to discuss their child's future learning journey with the teachers, and enjoy meeting other parents at these sessions. In Early Years we follow the Early Learning Goals as set out in the 'Statutory Framework for the Early Years Foundation Stage' document, published by the Department for Education, including the Seven Areas of Learning and Development - Personal, Social and Emotional Development, Physical Development, Communication and Language, Literacy, Mathematics, Understanding of the World and Expressive Arts and Design.

Academic development

In Years 1 and 2 (ages five to seven), our pupils really begin to develop into confident individuals. Pupils build the foundations of English and Maths and begin to explore Science, Technology and the Creative Arts. French is taught from the Preparatory Class, with an additional language introduced in the later years. On the netball court, the games field or the running track, they develop a spirit of competition and sportsmanship. Pupils gain an understanding of democracy and values, learn the importance of forming their own opinions and listening to the views of others. Growing in confidence, the world begins to open up to our pupils and they start to understand their place in it. Visits to places of interest in the local area as well as further afield, such as museums and the theatre, show them that learning doesn't just happen in the classroom.

'St Mary's is a non-selective school with a real focus on academic teaching tailored to each individual. Children make exceptional progress in their learning.'

- Mrs Emma Stanhope,
Director of St Mary's Lower School

Lower School

St Mary's Lower School is a member of the prestigious Independent Association of Preparatory Schools, which comprises the world's top schools and offers opportunities to share educational excellence.

A brilliantly balanced curriculum

There is a real focus on academic achievement at St Mary's, but at the same time the balanced and varied curriculum is designed to stimulate a curiosity for learning and develop well rounded individuals. Pupils are equipped as independent learners, keen to ask questions and to find the answers themselves, expanding their learning all the time. Their education is enriched through creative subjects taught by specialist teachers, as well as lots of opportunities to take part in a range of sports.

Forest Schools sessions in the school's own outdoor classroom area develop physical confidence, team-building skills and a sense of adventure. These sessions are enormously popular with the children and also offer the added benefits of enhancing the children's wellbeing and offering opportunities for the children to reflect.

The arts and sport

Pupils' horizons are broadened through creativity and physical challenge.

In weekly Music lessons, pupils sing, play percussion instruments and learn musical notation, as well as appreciating different musical styles. Pupils begin to play the recorder in Year 2 and we offer a variety of individual music lessons in instruments such as flute, clarinet, saxophone, violin, guitar, drums and piano.

Through Drama our pupils develop their confidence and imaginations. Every infant has a role in the Christmas Nativity and the Juniors take part in a summer production. Pupils enjoy sessions in our superb drama space.

Art is taught as a discrete subject and in our newly refurbished Art Room pupils tackle creative projects, from sculpture to textiles.

A trained dance professional takes Ballet lessons in school for pupils in Kindergarten and Prep. Lessons are also available in our Dance Studio after school.

Fostering team spirit

Lower School

Physical Education is lively and fun at St Mary's. Our team sports are netball, cross country and athletics. We take part enthusiastically in local competitions and tournaments, with great success. Pupils enjoy lessons in swimming, gymnastics, and orienteering. Each year group also enjoys a term of Forest School activities in our fabulous forest area.

Monitoring and assessment

Pupils' learning is monitored continually to ensure that individuals' needs are being met. Our results in national tests are outstanding.

Clubs and activities

From Breakfast Club to After-school Care, Craft Club to Karate, there are clubs and activities to suit all interests at St Mary's. Our sports clubs are extremely popular – particularly netball, tennis and multi-sports. Drama opportunities, including LAMDA lessons, and ballet are also hugely popular with our pupils. Busy families can take advantage of an early drop-off and late collection, which provides a chance for pupils to get on with their home learning.

Preparing for 'Plus 11'

Our aim is for our pupils to leave the Lower School ready to take the next step in their education with confidence. Our 'Plus 11' programme builds the necessary skills throughout the Junior years, so it's perhaps no surprise that St Mary's pupils have an excellent record of success in St Mary's Senior School Scholarship Assessments (Academic, Art, Music, Drama, Sport and the Miss Comrie Scholarship) and also the 11+ exam for entry to the local high-performing state grammar schools.

'Coming to St Mary's has really boosted my confidence. I get involved in all sorts of activities and putting my hand up in class never worries me.'

St Mary's pupil

‘Pupils develop as confident, talented and educated young people, ready to make a difference in the world around them.’

- The Independent Schools Inspectorate

Senior School

At St Mary's, each girl grows up and learns at her own pace. Every individual receives exactly the right amount of support and encouragement to achieve her academic potential and there is a wealth of opportunities for her to develop her character and personality. The atmosphere is relaxed, yet lively and purposeful, and there is a wonderful support network of staff and students.

Academic focus

Academic achievement is central to the St Mary's ethos. Each girl is expected to work hard to fulfil her potential and to move on to the next stage of study with confidence. Students enter the Senior School in Year 7, at the age of 11, and apart from Maths are taught in mixed-ability classes at first. For our strongest mathematicians, GCSE Statistics and Further Maths are available. English is set from Year 9. A recent addition to the curriculum is preparation for the English Speaking Board examinations in public speaking, which enhance students' Speaking and Listening skills and encourages the girls to feel confident about forming and expressing their own opinions, giving presentations and speaking in public. Science is taught by specialist teachers in all years with the option at GCSE to study three separate sciences. In addition to the humanities, Classics is taught in Years 7 to 9 and offered at GCSE, and some girls continue with Latin in Year 9 with the option to progress to the GCSE course.

All students joining in Year 7 learn French, German and Spanish with the option of selecting one of these languages to study from Year 8.

Becoming an independent learner is key to success, so at St Mary's, Study Skills is part of the curriculum for Years 7 and 8.

GCSE success

At GCSE, all girls take English Language, English Literature, Maths and a modern foreign language, plus five other subjects of their own choice, of which at least two must be Science. Extra tuition and learning support are offered to students who are gifted as well as those who benefit from support, to make sure that each student has the right level of challenge and encouragement to achieve all that she is capable of. Reports are compiled three times a year and parents are invited to school on a regular basis for meetings with teaching staff to discuss progress.

Technological advances

The school is wifi-enabled throughout and with iPads being part of the equipment list, every student has access to a device and they can be used in all subjects to enhance their learning, under the guidance of teaching staff. A well-equipped computer suite is available for private study every lunchtime.

'Whatever their starting point when they join us, St Mary's girls achieve impressive results at GCSE and move on to the sixth form of their choice.'

- Miss Anwen Jones
Director of St Mary's Senior School

Senior School

A brilliantly balanced curriculum

Academic study at St Mary's is balanced with a huge range of creative and physical activities, designed to help each student to develop as an individual and discover talents and interests that may well last a lifetime.

Music is all around at St Mary's. Several choirs, the school orchestra and smaller instrumental groups perform at school functions and give regular concerts to the delight of audiences of parents and friends. Music is on the curriculum in Years 7, 8 and 9 and is a popular GCSE option – St Mary's students regularly achieve top grades. The large Music room is equipped with the latest composition software and keyboards. Our experienced instrumental teachers offer individual lessons on the flute, oboe, clarinet, all saxophones and brass, violin, cello, guitar (acoustic and electric), drums, piano and voice, and other instrumental lessons can often be arranged on request. Outside of school, students regularly take part in local and national music festivals.

Drama has a strong tradition at St Mary's and our many school productions mean that students of all ages have the opportunity to take part and to learn new skills – from acting and dance to set construction, lighting and make-up. Our spacious Drama Studio is the ideal rehearsal room and we have a stage equipped with professional lighting for performances in the school hall. Drama is offered as a GCSE option.

In the first three years at St Mary's, Art is a foundation course that encourages girls to produce a very high standard of practical work. In Year 10 students may study Art at GCSE – their work is often recognised by GCSE examiners as 'outstanding and exceptional' and has been described as 'some of the best work in the country'. Students' art is displayed in the school gallery in the Dining Hall. Art students are inspired by trips to galleries. Professional artists visit the school to lead workshops on particular aspects of art, including sculpture, portraiture and jewellery making.

Textiles is popular at St Mary's and many students choose to pursue the subject in Years 10 and 11. The focus is on designing, developing, creating and manufacturing high-quality garments, which are often entered into national competitions with great success. Students' work is showcased at our fabulous biennial Fashion Show with girls from Years 8 to 11 creating pieces following a theme.

In Food and Nutrition lessons, students in Years 8 and 9 gain an understanding of nutrition, diet, healthy lifestyle choices and the technology of food and its production, through theoretical and practical lessons. Visiting professional chefs give masterclasses and insights into ingredients and techniques to enhance the GCSE level Hospitality and Catering course.

Senior School

Information Communications Technology (ICT) is taught in Years 7 to 9 with the option to pursue a GCSE course which gives students a good understanding of what makes technology work. The school has three fully equipped computer suites, which are used for ICT lessons and to support learning in other subjects. Students also have school-wide wifi access and with iPads being part of the equipment list, every student has access to a device to enhance learning and continually develop ICT skills.

Physical Education is for all at St Mary's. With a mixture of team and individual sports on offer – including basketball, dance, fitness, football, gymnastics, netball, rugby, volleyball, athletics, tennis, rounders, striking and fielding games, swimming, multi-gym (from Year 9), badminton, racquetball and trampolining – there is so much choice that every individual can find an activity to enjoy and which contributes to a healthy lifestyle. A full fixtures list means that St Mary's teams compete against other schools in national and local sporting competitions, with great success. The St Mary's Sports Leadership Programme is popular and many girls choose PE at GCSE level. Lunchtime and after school clubs offer even more opportunities for team training and to develop practical and tactical skills. Through clubs and trips, girls also get the opportunity to try something new, for example paddle boarding or skiing.

'Since joining St Mary's I've really surprised myself by enjoying and being good at subjects I never thought I could do well in. It has really changed my idea of what I'd like to do in the future.'

- St Mary's student

Embedding academic excellence

Education for life

At St Mary's we are mindful of the importance of preparing pupils for the wider world and for life after school. Through partnerships with internationally renowned organisations, pupils are equipped to play a full part in life and in their communities, inside and outside of school.

Girls' Schools Association

St Mary's is an active member of the Girls' Schools Association (GSA), the professional association representing the Heads of the UK's leading girls' independent schools. St Mary's benefits from the GSA's support and regular briefings on educational matters in order to promote high standards of education for girls in a complex and changing world, inform and influence national educational debate, promote the benefits of single-sex education for girls and to provide support for member schools. This brings many opportunities for pupils to meet with others from GSA schools, to further their learning and experience.

Independent Association of Preparatory Schools

St Mary's Lower School is a member of the Independent Association of Preparatory Schools, a prestigious organisation comprising the top performing preparatory schools in the world. This gives a golden opportunity to take inspiration from the very best schools and to share with them our own methods for success. Pupils are able to meet and mix with those from other member schools while taking part in inter-school challenges, practising their social skills and pitting their wits against their contemporaries.

Round Square

St Mary's is a global member of the Round Square Organisation, a worldwide network of 180 top schools in 50 countries, which offers the school a unique framework for excellence and continuous improvement, as well as opportunities to collaborate and share experiences with like-minded peers and establishments across the globe. Students have the opportunity to attend regular conferences in places such as India, South Africa, Canada and Denmark.

Other international connections

St Mary's is an International School, accredited by the British Council, and this gives us opportunities to forge links with schools and organisations around the world. Exchange visits with our partner school in the Netherlands, our lively annual International Week, and an ongoing programme of talks by international and cultural groups all encourage students to become involved in the global community.

Education for life

Wellbeing

For young people to thrive they must feel confident, relaxed and secure. Our pastoral support is at the centre of all we do and we're delighted the national Wellbeing Award for Schools recognises our excellence in this area. Before girls even start at St Mary's we take time to get to know them and their families, and we have initiatives in place from induction programmes to buddy systems to help students settle in. There's a very positive culture at St Mary's and visitors often comment on how staff and students are always smiling. It is in this positive environment where the girls develop the self-confidence needed to flourish.

Environmental awareness

We are also keen to foster a respect for the environment and there are numerous initiatives throughout the school aimed at improving sustainability and encouraging pupils to be eco-friendly. Our own school campus is as efficient as possible, with water recycling and collection boxes for everything from pens to jewellery. St Mary's is an Ambassador Eco-School and hosts national conferences, sharing our expertise with other schools and organisations.

Healthy lifestyles

St Mary's is an accredited Healthy School and health and nutrition are taken seriously. Pupils are encouraged to lead healthy lifestyles now and throughout their lives. All pupils eat a hot meal at lunchtime, cooked on the premises by specialist caterers and served in a 'family dining' style – pupils sit at tables, serving each other and helping to clear away afterwards.

Duke of Edinburgh's Award

Each year a group of St Mary's students challenge themselves to complete the Duke of Edinburgh's Bronze and Silver Award, acquiring new skills, undertaking expeditions and cementing friendships. The skills developed through DofE are widely recognised in education and employment, demonstrating commitment, teamworking, strength of character and resilience.

School Houses

The spirit of competition is alive and well at St Mary's! Challenges of all kinds, from baking competitions and quizzes to sponsored cross-country races, are entered into with great enthusiasm as students strive to do their best for one of the school's Houses. Team-work skills are developed and friendships are forged as students of all year groups pull together.

Positions of Responsibility

From helping in the library or becoming a Digital Leader to perhaps becoming a Lower or Senior School Head Girl, Games Captain, House Official or Prefect, there are many opportunities for pupils to develop their leadership skills and to make an active contribution to the school community. School Councils at both the Lower and Senior Schools give pupils a voice and their input into school life is valued. Many posts of responsibility are applied for and democratically elected.

Buddies and Listeners

All Senior School students take on a pastoral role as 'Buddy' to a girl in the year below, helping her to settle into the school and offering support during her time at St Mary's. In this way 'Buddy Families' are formed and there are fun social events for Buddies throughout the year. Selected girls in Year 11 are trained as 'Listeners', peer mentors who lend an ear to students with minor problems to discuss.

'The school feels like one big family, where everyone knows and respects each other. It is a family that I am so honoured to be part of. I know that I will take my experience of school with me throughout my whole life and I am truly proud to be a St Mary's girl, through and through.'

A former Senior School Head Girl

Nurturing talent

Joining St Mary's

You are welcome to visit St Mary's with a view to your child joining the school. Please contact the Registrar on 01206 594180 to make an appointment, or come along to our Open Mornings in Autumn and Spring.

Admissions

The next step is to register your child for a place by completing the Registration Form, which can be found on our website: www.stmaryscolchester.org.uk/admissions/register or a paper copy is available on request. Please return this form to our Registrar with the Registration Fee of £50. Your child will then be invited to take part in a Taster Day at St Mary's, prior to any joining assessment and the offer of a place.

Early registration is recommended. Registrations will be considered in the order in which they are received. Offers of places are subject to availability and the admission requirements of the school at the time offers are made. A copy of the current edition of the Terms and Conditions will be supplied on request.

Scholarships

Each year a number of St Mary's Scholarships are awarded to prospective Year 7 students in recognition of achievement, to acknowledge excellence and show the importance the school places on various areas of the curriculum. Scholarships are for discretionary amounts of fee remission. All scholarships are awarded on merit and in open competition. An annual review will take place, and where a student has done her best to uphold the conditions of the scholarship, this review is normally a formality for the duration of her school career. However, where the student fails to meet the expectations of a scholar in terms of effort, a scholarship can be withdrawn at the end of an academic year. In order to qualify for a scholarship, girls must meet normal academic entry requirements. Academic scholarships are offered for 11+ entry to girls based on exceptional performance in the Year 7 Entrance Assessment. Students who show particular aptitude in Art, Drama, Music and Sport are encouraged to apply for the relevant Scholarships. Miss Comrie Scholarships can also be awarded to girls who show all-round ability and who the Principal considers will benefit from the St Mary's education. For full details of the St Mary's scholarship requirements and process, please see our website and the St Mary's Year 7 scholarships booklet.
