

St Mary's  
Colchester

# Wellbeing Vision Statement

At St Mary's, for young people to thrive, learn and achieve, they must feel content, relaxed and secure. Each individual is known and understood and there is a culture in the school community – our staff as well as students – of caring for each other, celebrating successes and working through difficulties. In this environment our people develop the strength of character and the self-confidence they need to make the very most of the life that lies ahead. Happy girls and staff become high achievers.
